

LIFELAST DURASHIELD COATINGS

SERVING THE FOOD PROCESSING INDUSTRY

LifeLast DuraShield coatings are designed to provide tough, durable protection for your entire operation. Our complete range of coating products protect your facility and machinery from corrosion, abrasion and impact. DuraShield coatings reduce sticking and build up therefore mitigating the problems associated with bacterial growth and contamination. DuraShield products on floors and walls clean more easily, resist harsh cleaning chemicals and last for years and years. All of LifeLast's DuraShield products can be applied with either a smooth or non skid texture. Give your investment long-lasting protection with LifeLast DuraShield coatings.

DURASHIELD SUPERIOR COATING PRODUCTS FOR THE FOOD PROCESSING INDUSTRIES PROTECT AND PRESERVE YOUR INVESTMENT
